

SLING LOAD PROFESSIONAL UNMANNED SYSTEMS SOLUTION

ABOUT

The MacDrop payload drop system / sling load system is smooth, leveraging magnets to automatically lock in your weight up to 5 pounds and releasing it off of the DJI Pilot App. It comes ready to utilize, has the least amount of moving parts than all others, thereby ensuring less failures. It is also the easiest system to lock in the payload.

SUPPORTS

Small Unmanned Aircraft Systems

- DJI M210 V1 & V2
- DJI Pilot APP

INCLUDES

GoPro Mount System for M200/210

MacDrop System
